

MATTRESS TICKING CLEANING GUIDELINES

Cleaning instruction for the Premier ticking:

Mix 2 cups of warm water with 1 teaspoon of enzyme laundry detergent (e.g., Tide® or Cheer®) to form a mixture that works well on most stains.

Then follow these simple steps:

1. Remove excess soil and apply the soap mixture to the stained area
2. Agitate stain with a soft brush
3. Allow solution to remain on stain for one minute
4. Blot up the stain with a dry, white towel, rinse any remaining soap and blot the area again
5. Repeat if necessary

Cleaning instructions for Gel ticking:

Cleaning code W:

Spot clean only with water based shampoo or foam upholstery cleaner.

Pretest a small, inconspicuous area before proceeding. Do not use solvents to spot clean. Hot water extraction or steam cleaning is not a recommended cleaning method.

Cleaning instructions for Tempur-Pedic ticking:

If this is for the mattress on the sofa, since the cover is not removable, the customer would just have to use a damp cloth and try to remove as much of the dirt as possible. We do not recommend any type of cleaning supplies be used on the product.

To Disinfect:

Simply spray with Crypton Disinfectant & Deodorizer or 10% bleach/water solution leaving it on the required time as mandated by the Centers for Disease Control and Prevention guidelines. All bleach must be totally rinsed.
